

# Bweyale - Open Tech Workshop

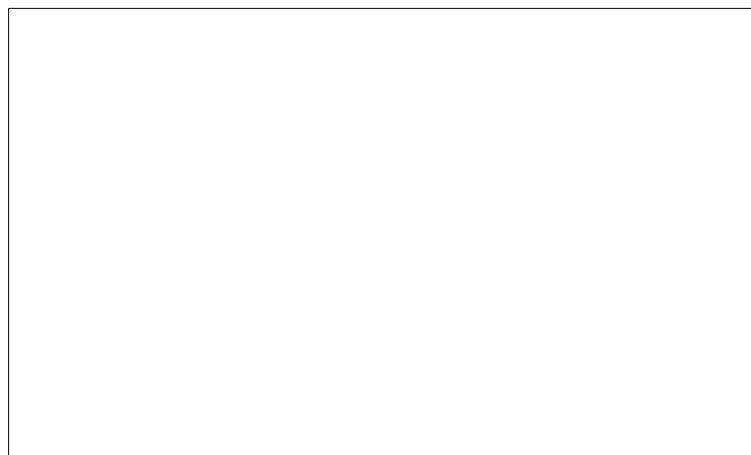

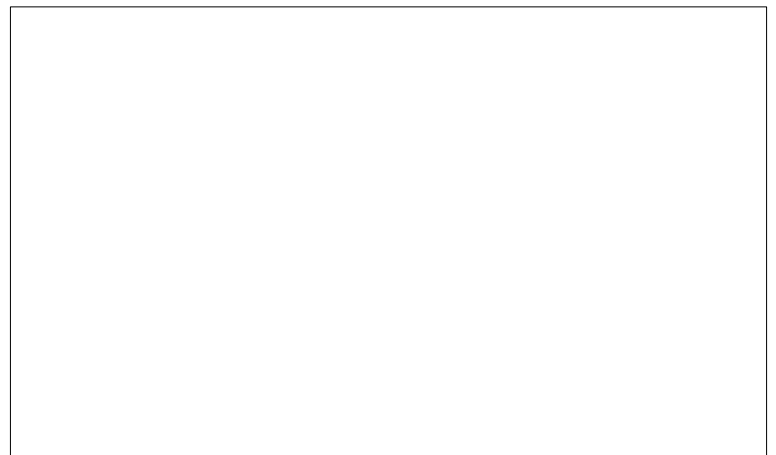

Field on-site action for the new trainees as an outcome of the 5 days workshop session on Open Tech and critical innovation processes.

running a self developed workshop for over 30 participants in 2 days and 4 sessions with three trainer teams

Moving away from the closed trusted circle of colleges to engage with a new group of people, improvising with the newly earned skills and leading the way through a self designed workshop with trainees from different ages and backgrounds.

(28<sup>th</sup> -29<sup>th</sup> Nov 2016)

In support of the main focus on enabling the participants to become trainers themselves, all of the agenda was set do channel teamwork, technical skills and documentation towards the final outcome: A Team of Open Tech Trainers

In the End we handed over a certificate to each and everyone of the participants.

And the new trainers themselves – well earned – finally got the official certificate!
